

## Ingredients & Snacks

For the first time, the authentic  
Purple Passion Fruit has been  
transformed into ingredients and snacks!

**Kymuba®** is the agro-industrial brand of Ocati SA, a Colombian company with over 35 years of market experience in producing, packing, and selling fresh exotic fruits.

Ocati is the largest exporter of fresh Purple Passion Fruit and is well-known in the European industry for its high food safety standards (strict control of pesticide residues) and its robust traceability system.

**Kymuba®**, launched in 2022, focuses on creating innovative and nutritious ingredients and snacks using Ocati's premium Purple Passion Fruit.

## Unleashing the fruit essence

We deliver the authentic taste of the Purple Passion Fruit while maintaining its unique health benefits as a powerful antioxidant and an excellent source of fiber.

## Minimizing food waste

By using parts of the fruit that are normally discarded, such as seeds, mesocarp and peel, we are placing food waste reduction at the heart of our innovation project.

## Empowering farmers

We give small-scale farmers in Colombia a new source of income by upscaling their "imperfect produce" and transforming it into higher-value products.

# Purple Passion Fruit Ingredients & Snacks

## Freeze-dried Powder

Our freeze-dried powder is a natural and premium ingredient that is perfect to add sophistication to food creations. Because freeze-drying does not use any heat or added preservatives, the nutritional values of our powder are virtually unchanged from the original state of the fresh fruit.

- 100% fruit, no sugar, no additives
- Intense flavor: even a small quantity is enough to give an exotic punch
- Crunchy texture
- Excellent source of fiber (22g / 100g)
- Excellent source of protein (8.7g / 100g)

## Spray-dried Powder

Our spray-dried powder is extremely soft! It has a very small particle size that makes it highly soluble and easy to combine with other solid or liquid ingredients. Few powders have such amazing versatility!

- Intense flavor: even a small quantity is enough to give an exotic punch
- Soft texture
- Highly soluble
- Maltodextrin is added as a carrier agent

## Air-dried Powder

Our air-dried powder is a natural ingredient with a nice purple passion fruit taste. This powder has large size particles, making it a good option to add texture to food preparations.

- 100% fruit, no sugar, no additives
- Intense flavor: even a small quantity is enough to give an exotic punch

# Purple Passion Fruit Ingredients & Snacks

## Crystals

Our freeze-dried crystals are crunchy pieces of Purple Passion fruit that are made with pulp. This is a natural and premium ingredient/inclusion that is perfect to add sophistication to food creations.

- 100% fruit, no sugar, no additives
- Intense flavor: even a small quantity is enough to give an exotic punch
- Crunchy texture
- Retains the maximum amount of fresh fruit's nutritional value

## Strips

Our Purple Passion Fruit strips are thin as paper, and with a very intense flavor. They are perfect as an exotic and convenient snack but can also be used to garnish desserts and ice creams, adding a touch of sophistication.

- 100% fruit, no sugar, no additives
- Jelly texture

## Flakes

Our air-dried flakes are soft and jelly pieces of purple passion fruit that are made with pulp. They work nicely as a fruit inclusion, adding texture and an exotic flavor to food creations.

- 100% fruit, no sugar, no additives
- Jelly texture

## Crunchies

Our one-of-a-kind crunchies are small pieces of purple passion fruit made with the flesh of the fruit (including the seeds) and the inner skin (the mesocarp). As the name suggests, they have an appealing crunchy texture that makes them perfect as a snack or as an inclusion.

- Crunchy texture
- No artificial flavors or colors
- Excellent source of fiber (20g / 100g)
- Excellent source of protein (6.6g /100g)
- High antioxidant capacity (ORAC 6.800)
- Virtually zero food waste

They come in 2 different sizes:

- Medium: 1 cm
- Small: 3 mm

## Chunks

Our one-of-a-kind chunks are crunchy pieces of purple passion fruit made with the flesh of the fruit and the inner skin. They have a soft purple color and an irresistible flavor punch.

- Crunchy texture
- No artificial flavors or colors
- Excellent source of fiber (22g / 100g)
- Excellent source of protein (6.6g /100g)
- High antioxidant capacity (ORAC 6.800)
- Virtually zero food waste

They come in 3 different sizes:

- Halves: 4 cm x 2 cm
- Quarters: 2 cm x 2 cm
- Miniatures: 1cm x 2 cm
